GA technologies Co., Ltd.

## GA technologies Appoints Takashi Uematsu as Senior Executive Officer

GA technologies Co., Ltd. (Headquarters: Minato-ku, Tokyo; President, CEO: Ryo Higuchi, Stock Code: 3491; hereinafter referred to as the “Company”) is pleased to announce the appointment of Takashi Uematsu as Senior Executive Officer on June 1, 2026.

Furthermore, the Company hereby announces that Uematsu has also been appointed as Representative Director, President & CEO of group company ITANDI, Inc., on the same date.

### ◆ Background of the Appointment and Future Outlook

The real estate tech market is undergoing a rapid paradigm shift triggered by the rise of generative AI, accelerating the transformation of technology-led industry structures.

For 15 years at Salesforce Japan Co., Ltd., Uematsu spearheaded the scale-driven management of the company’s SaaS business operations and drove the front-line adoption of AI. Going forward, he will leverage his expertise to build an operating system (OS) for real estate transactions that fully digitizes every aspect of the rental process, from applications and contracts through to property management and move-outs. In addition, he will lead the adoption of AI across the entire GA technologies Group, led by the ITANDI business, with the aim of driving up consolidated growth and enhancing corporate value.

The following presents further details regarding the background of Uematsu’s appointment as Representative Director, President & CEO of ITANDI, Inc.

**◆ New Senior Executive Officer****[Profile]**

Senior Executive Officer | Takashi Uematsu

Uematsu graduated from the Graduate School of Business Administration at Rikkyo University. After beginning his career as a system engineer, he worked in IT outsourcing sales at a major systems integrator. In 2012, he joined Salesforce.com, Inc. (now Salesforce Japan Co., Ltd.), where he led management transformations through the adoption of cloud-based functions across a broad range of segments, from enterprise clients through to small and medium-sized businesses (SMB). He expanded the organization as general manager of the Sales Department and later head of the Sales Headquarters, and was appointed as an executive officer in 2019 and senior executive officer in 2024. He oversaw the sales organization (for the SMB sector) and worked closely with management teams in a wide range of industries. Based on his experience leveraging technology to drive digital transformation on the front lines of operations, he has been appointed Senior Executive Officer at the Company and Representative Director, President & CEO at ITANDI, Inc., effective June 2026.

**[Career Summary]**

Sept. 1979	Born in Kanagawa Prefecture and raised in Zushi City

Aug. 2015	Appointed general manager of the Sales Department at Salesforce Japan Co., Ltd.
Feb. 2017	Appointed head of the Sales Headquarters at Salesforce Japan Co., Ltd.
Feb. 2019	Appointed executive officer at Salesforce Japan Co., Ltd.
Feb. 2024	Appointed senior executive officer at Salesforce Japan Co., Ltd.
May 2026	Resigned from Salesforce Japan Co., Ltd.
Jun. 2026	Appointed senior executive officer at GA technologies Co., Ltd. Appointed representative director, president & CEO at ITANDI, Inc.

**[Comments upon Appointment]**

On behalf of the ITANDI business, I would like to extend a warm greeting to all of our stakeholders. During my 15 years at Salesforce Japan, I was at the forefront of scale-driven management for its SaaS business operations. I will devote the full breadth of my experience to the future growth of the ITANDI business and to enhancing corporate value across the GA technologies Group. ITANDI business operations will serve as a key driver of the Group's consolidated growth over the next several years. I am fully committed to living up to the trust that has been placed in me. I promise to continue proving each and every step of the progress that we make through concrete numbers and tangible results. I would sincerely appreciate your continued support going forward.

**◆ Comment from Ryo Higuchi, Representative Director, President and CEO of GA technologies**

I am highly encouraged to welcome Mr. Uematsu as Senior Executive Officer of the Company and Representative Director, President & CEO of ITANDI, Inc.

Mr. Uematsu is a highly accomplished leader who has spearheaded organizational growth at a major SaaS company for approximately 15 years. While demonstrating outstanding expertise in formulating sales strategies, organizational management, and systematizing operations, he also possesses a background as an engineer. Based on his deep understanding of technology, he is a rare talent capable of embodying "the construction of a next-generation organization premised on the adoption of AI," and I am confident that he will be a key person in accelerating the growth of the entire GA technologies Group.

Currently, ITANDI is entering its "second founding period," a phase that demands a dramatic scaling of both its business and organization. For the Group as a whole to achieve sustainable and high growth rates, we have determined that further strengthening of our management foundation is essential.

Going forward, we will transition to a new structure in which former CEO Nagashima will focus on technology strategy and the creation of innovation, while Mr. Uematsu oversees the entire organization as top management. Through this clear division of roles, we aim to accelerate decision-making and maximize our execution capabilities.

The Group is now entering a new growth phase aimed at even greater heights. Under this new structure, we will work together as one to strive toward enhancing corporate value and living up to the expectations of all our stakeholders.

**◆ Profile of ITANDI**

ITANDI, Inc. is a real estate tech company that provides services to solve issues in the real estate industry, guided by its mission of "Streamlining real estate transactions through technology". The company is driving digital transformation (DX) in the real estate industry. Through its core business services, it processes approximately 1.13 million electronic move-in applications and 430,000 electronic contracts annually (\*1), and has achieved an annual reduction of approximately 12.92 million sheets of paper by digitizing documents related to move-in applications and lease agreements (\*2).

(\*1) Target period: April 1, 2025 to March 31, 2026.

(\*2) Based on the Company's standards. Target period: April 1, 2025 to March 31, 2026. Calculated based on the estimated number of sheets reduced by companies adopting the "ITANDI Rental Management" service provided by the Company.
